Terminal: the smarter global talent platform for hiring developers

$ & save 50%+ in development costs

Finding elite developers is mission critical. That's understood. Quickly finding top talent without overspending? That's how the best technology companies level up and achieve big things.

Enter **Terminal**, the smarter global talent platform for hiring developers. Our in-market experts and AI-powered platform work together to match you to top quality full-time, contract, or contract-to-hire engineers. Vetted, ready-to-hire senior talent from Canada, Latin America, and Europe ensure you can hire 40% faster and save 50%+ in development costs.

Hire elite global talent & save 50% in costs

✓ **Instant access to top senior developers**, as only the top 7% of experienced engineers get submitted.

✓ **Reduce development costs by 50%+** over domestic hiring with global talent from Canada, Latin America, and Europe.

✓ **Hire in less than a week** thanks to our always-on recruiting pipeline matching vetted candidates for your roles.

✓ **Stress-free process** handles payments, contracts, employment and administration for your team.

Terminal offerings

Contract developers for fixed-term engagements. Terminal manages invoicing and payment.

Contract-to-hire allows you to try before you buy and seamlessly convert contractors to full-time.

Full-time developers for your growing team. We will employ your hires or you can self-manage.

All powered by Talent Hub, where you can view vetted developers, review deep candidate profiles including video interviews, and manage your hiring and interview process.

How does Terminal work?

1 **Preview global talent** instantly for free and consult with our team to understand hiring markets & cost savings.

2 **Post a job** and partner with Terminal talent experts to understand your role and interview process.

3 **Match and review** pre-screened, ready-to-interview candidates.

4 **Interview** approved candidates, partnering with Terminal to facilitate your preferred interview experience.

5 **Hire in as soon as 5 days!**

We've hired 1,000+ for top technology companies.
